Description

Ce contenu est une compilation d'articles de l'encyclopédie libre Wikipedia. Remonstrants, the name given to those Dutch Protestants who, after the death of Jacobus Arminius, maintained the views associated with his name, and in 1610 presented to the states of Holland and Friesland a remonstrance in five articles formulating their points of disagreement from Calvinism. The Remonstrant Brotherhood is a Church in the Netherlands, established in 1617, after a group of ministers, was expelled from the Synod of Dordrecht. It has its origins in the theology of Arminius and the signing of the Five articles of Remonstrance" against a stricter form of Calvinism by 44 ministers. The Remonstrants proclaimed the responsibility of man, pre-ordination through foreknowledge of faith, and that Christ's death was sufficient for all. The Remonstrants first received official recognition in 1795. "
